TK SMART

by Turkish Cargo

A TRANSPORT STORY

“I am a stylist. Creations that blend different cultures have become my signature designs. I had to import fabric from Bucharest to Los Angeles to reflect the designs I had in mind for the next season’s line. I had to make the right choice for the product to be here on the planned date, and I saw that Turkish Cargo was the best choice. Using the TK SMART service, I received my fabrics both at an affordable cost and at the specified time. **”**

A TRANSPORT STORY

“ I am a procurement manager in an automotive company. Recently, we had an issue in the supply of a part on our production line. The piece was also a very important one. There would've been no production without it, the factory would come to a halt. Well, of course, nobody wants none of that. Anyway, we searched and searched and found the piece in Kuala Lumpur. It had to be delivered to Sao Paulo from all the way there. Besides, we were in a hurry. We contacted an agency that is a Turkish Cargo customer. Since our parts were under 300 kg, with the TK PREMIUM service, we were able to supply our product with a reservation flight although the aircraft was full. I don't know what would've happened if it wasn't for Turkish Cargo. ”

TK URGENT

by Turkish Cargo

A TRANSPORT STORY

“ I work for a company in Dusseldorf that manufactures medical devices. We provide medical supplies to hospitals. Materials were needed to be used for a patient taken to the ICU one day, moreover, it had to be delivered to the hospital on the same day. I know it's hard to believe, but we pulled through, we had the material transported from Delhi to Dusseldorf on the same day. We chose the TK URGENT service by Turkish Cargo for such a critical, last minute and emergency situation. TK URGENT Team also kept in touch with us from the beginning to the end, and carried out the whole process meticulously and smoothly. ”
