

**TURKISH CARGO SMART IST**

# ABOUT TURKISH CARGO

Cargo transportation which started with mail and small important documents has developed over time according to customer needs and with the restructuring of Turkish Airlines in 2000, Turkish Airlines cargo division started to operate as a brand of Turkish Cargo.

Developing rapidly over the years, Turkish Cargo, which flies to the most destinations in the world with more than 340 destinations in 132 countries, locates its headquarters in Istanbul. Exactly 50 countries are covered when a circle is drawn with a 4-hour diameter radius from Istanbul, the bridge of the world.

Turkish Cargo strives to be among the best in the world by constantly raising the bar.

PHASE 1

4M  
TONS

PHASE 2

This number means the weight of 800,000 elephants.

Turkish Cargo has built SMARTIST, one of the largest hubs in the world, and designed it by anticipating **the rise in demand** for air cargo transportation and designing processes according to the needs of the market.

**Separated operation areas** for special cargo and products, **goods and document acceptance offices and equipment have been established, and controllable air-conditioned areas specific to the product type have been established.**

With its innovative mission, Turkish Cargo continues to increase its service quality in a sustainable way by developing pioneering projects in the field of digitalization and innovation.
